Front-End Developer with 4+ years of experience in Angular (10-18), TypeScript, and CSS, delivering enterprise insurance applications. Reduced critical defects by 30% and improved client communication efficiency by 25% through Agile methodologies.

WORK EXPERIENCE

System Engineer, Tata Consultancy Services (TCS) Kolkata, India
Dec. 2021 — Present

- 4+ years of experience in TCS as System Engineer from Dec 2021 in client projects.
- Managed and prioritized user stories and change requests, resolving an average of 15+ defects per sprint with a 95% on-time resolution rate, improving overall product stability.
- Adhered to Agile (Scrum) methodologies, participating in daily stand-ups, sprint planning, and retrospectives to ensure timely project delivery.
- Provided comprehensive Knowledge Transfer (KT) sessions on technical and business requirements to 5+ new hires and team members.

PROJECTS

TCS Product Jan. 2025 — Present

- Directed the technical upgrade of the core Angular application from v12 to v18, improving performance by 30% and reducing bug resolution time by 25%.
- Architected and implemented a micro-frontend design, modularizing the application to enable parallel development streams and reducing deployment cycle time by 30%.
- Mentored and trained 3 junior developers on Angular best practices and technical specifications, improving team code quality scores by 25% and reducing bug reports by 15%.

Project- SSBT Feb. 2023 — Jan. 2025

- Managed 50+ user stories and 100+ change requests (CRs) for a large-scale insurance web platform, resolving 95% of critical defects within 24 hours to ensure 99.9% application uptime.
- Upgraded Angular applications from v12 to v14, integrating 5+ new features and optimizing 50+ components, resulting in a 15% improvement in application load times.
- Served as primary technical liaison for 10+ enterprise clients, resolving an average of 5 critical issues weekly and improving client satisfaction scores by 15%.
- Maintained 95%+ code quality score by implementing rigorous design, code reviews, testing, and debugging processes, reducing critical bugs by 30%.
- Managed code deployment across dev, stable, and production environments, reducing release cycle time by 30% and ensuring 99.9% uptime.

Project -AIB Jan. 2022 — Feb. 2023

- Engineered 50+ responsive web pages using Angular, TypeScript, HTML, and CSS in Visual Studio Code, achieving 99% cross-browser compatibility and reducing page load times by 15%.
- Delivered 5+ critical user stories, maintaining 100% code coverage and resolving 50+ SonarQube issues to improve code quality by 30%.
- Authored 50+ unit test cases using Jasmine and Angular Spec Files, achieving 95% code coverage and reducing critical production bugs by 30%.
- Engaged directly with clients for a major insurance web application, resolving critical issues and improving client satisfaction scores by 15%.
- Delivered comprehensive Knowledge Transfer sessions to 5+ team members, covering critical technical and business aspects of the application, resulting in a 30% faster onboarding time for new hires.
- Contributed to a successful project Go-Live, ensuring 100% of deliverables met client requirements and achieving an average client satisfaction score of 4.8/5.

EDUCATION

Bengal College of Engineering (MAKAUT)
B.Tech in Computer Science and Engineering
Aug. 2016 — Jun. 2020

Narugram High School (WBCHSE)
Higher Secondary
Mar. 2015

Narugram High School (WBBSC)
Secondary
Mar. 2013

SKILLS

Front-End Frameworks & Libraries
Angular (v10, v13, v14, v18), RxJS, NgRx (Inferred)

Core Web Technologies
TypeScript, HTML5, CSS3

Development Practices
Agile Methodologies (Scrum), Unit Testing (Jasmine, Spec Files), Code Deployment & Release Management, Defect Resolution, Code Optimization

Backend & Tools
ASP.NET MVC, Visual Studio Code, SonarQube

ACHIEVEMENTS

On The Spot Award
Received 3 'On The Spot' awards for outstanding contributions (2024).

Best Team Award
Recognized with the 'Best Team Award' for exceptional team collaboration (TCS, 2024).

Certification of Appreciation
Awarded for significant contributions to the AIB Life - TCS partnership and successful project Go-Live (2023).
